

A Quilt Plan ... Sun Compass

SUN COMPASS QUILT PLANS

Scale: each square=1" ... the quilt above is about 70" x 70"

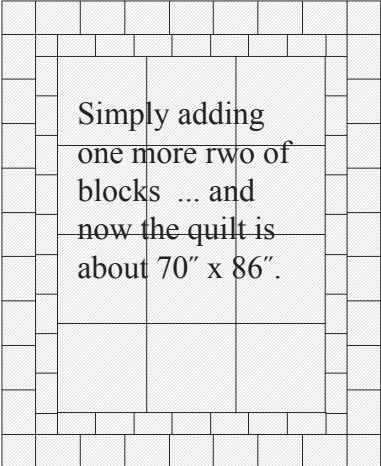

The center blocks are planned for 16" in diameter.

The first border is planned at 4" (4" pattern height and 7" pattern width.)

It is a wrap-around border style so you don't need to worry about corner blocks. The outer border is 6" (6" pattern height and 8" pattern width.).

Want a bigger quilt? Want a quilt that is not square?

Change the layout; add more blocks to the center; change the block size; add 1/4" framing borders to separate block sections or quilt center from the border area.

Simply adding
one more row of
blocks ... and
now the quilt is
about 70" x 86".
